School Report **September 2009 To November 2009**

Howrah School

September and October being festival months in Bengal, the attendance was not very regular. The schools remained closed from 17th September to 5th October due to 'ID' and 'Puja' festival. Even then there has been a steady progress in studies. The children are progressing very well in all the subjects- i.e., English, Bengali and Arithmetic. They have learnt the Bengali alphabet very well and are able to make words and recite rhymes. In English also they are able to read and write the alphabet and tell rhymes.

In Arithmetic's they have learnt addition and tell numerical tables up to 2
The children are regularly having reciting and drawing lessons and enjoying indoor games

Bhangar School

There has been excellent progress in the academic level or studies. A steady progress has been achieved in English, Bengali and Arithmetic. In addition to textual studies, much importance is given to bring about an all around development of the students through PT exercises, music, drawing and teaching them hygienic habits and good manners. They also take part in indoor games.

Under our "Sensitization of Parents" programme, a comprehensive meeting of parents and teachers of Bhangar School was held on 20th November, 2009. The Executive and other members of Swayambhar NARI also participated in this programme. The Parents showed a very keen interest in the meeting and took an active part in discussions regarding different aspects of the school, which is now locally very popular.

Panditiya School

In keeping with the other schools, there has been a comprehensive development in the academic level and extra curricular activities of this one also. In English, Bengali and Arithmetic they are doing well in class tests. The children are regularly receiving drawing and recitation lessons and taking part in indoor games.

General Comment

A very cheerful atmosphere now prevails in all three schools. The children are very happy with the toys and sports item along with the nutritious Tiffin provided to them.

We are always thinking about the ways of further development of the schools. We are regularly interacting with the parents who are now taking a very active interest in the education of their children.

The Coaching classes of the three schools are also running regularly and providing to be very beneficial for the school children.
